Specialty Winery Services

## OUR SERVICES

### Labeling

Precision application for front, back, and specialty labels. We handle high-volume runs on our dedicated labeling machine as well as small-lot or premium placements by hand to ensure alignment, consistency, and perfect appearance.

### Waxing

Custom wax finishes to elevate bottle presentation. Whether it's full-dip, short-dip, angled, or dollop, we create a consistent, durable wax seal that showcases your brand style.

### Tissue Wrapping

Premium wrapping for gift, allocation, and direct-to-consumer releases. Angled or straight folds available, with optional stickers or signets for an elegant, branded finish.

### Capsuling

Smooth, clean capsule application using both machine and hand techniques. We ensure capsules are seated, spun, and finished uniformly for a refined final look.

### Gift Box Assembly

We handle custom packouts, specialty gift sets, and multi-component box assemblies. Bottles, merchandise, and filler materials are packed securely and attractively for a polished, presentation-ready finish.
